Chicken Leg Quarters to be Included in Two Percent Sampling Program

2003

Approved by:

David Williams
Mexico City

Prepared by:

Dulce Flores

Report Highlights:

On November 1, 2003, the Government of Mexico will begin sampling, testing, and holding two percent of all meat shipments until test results are known. Samples will be tested for a variety of residues including heavy metals and antibiotics. This is an addendum to report MX3144, to include chicken leg quarters.

Includes PSD Changes: No
Includes Trade Matrix: No

Chicken Leg Quarters Included in the 2% Sampling Procedures

As an addendum to an official letter, sent from the office of the Director General of Agricultural Health Inspection from the Secretariat of Agriculture, Livestock, Rural Development, Fisheries and Food (SAGARPA) on October 23, 2003, concerning new sampling procedures for animal and poultry products, the government of Mexico has indicated that the following products will also be subject to the sampling procedure.

TARIFF CLASSIFICATION	DESCRIPTION
0207.13.03	Legs, thighs or leg quarters
0207.14.04	Legs, thighs or leg quarters

See report MX3144 for additional details.
